

New Sydney Fish Market

Community notification

Bridge Road – temporary changes to traffic and pedestrian movements

29 July 2021

Dear neighbour

The NSW Government is delivering a new Sydney Fish Market which will retain its authentic experience and strengthen its position as one of Australia's leading tourist destinations.

Construction restarting on new Sydney Fish Market

In line with the NSW Government's COVID-19 Guidelines, construction on New Sydney Fish Market will resume from Saturday 31 July 2021. A comprehensive COVID-19 Safety Plan will be in place for the site.

For more information on the COVID-19 and construction activity, please visit the NSW Government website [here](#).

Upcoming work - Gate modification and vehicular crossover works

From Monday 2 August 2021, work to amend the site entrance gates and vehicular crossovers to Bridge Road will be carried out between **7:30am to 5:30pm Monday to Friday** and **7:30am to 3:30pm Saturday** for a period of two weeks. It is noted that these dates are subject to change pending inclement weather, and potential impacts of the NSW Government lockdown restrictions.

The work will involve modifying three existing gates and vehicle crossovers, and creating a new gate with a new vehicle crossover. These works are required to facilitate site access for construction vehicles during the main works stage of construction and to improve visibility at site interfaces which will help provide a safer corridor for vehicles, pedestrians and cyclists.

How this affects you

The work will require closing the two eastbound Bridge Road lanes and footpath (closest to the construction site, shown as 'work zone' in the diagram) between Wentworth Park Road and Wattle Street, during the above-mentioned construction hours. The following diversions will be in place during construction hours:

- Diverting vehicles and cyclists around the work zone, by temporarily reducing both directions of traffic to one lane.
- Diverting pedestrians across Bridge Road and along Wentworth Park. Traffic controllers will be in place to safely assist pedestrians to cross the road.

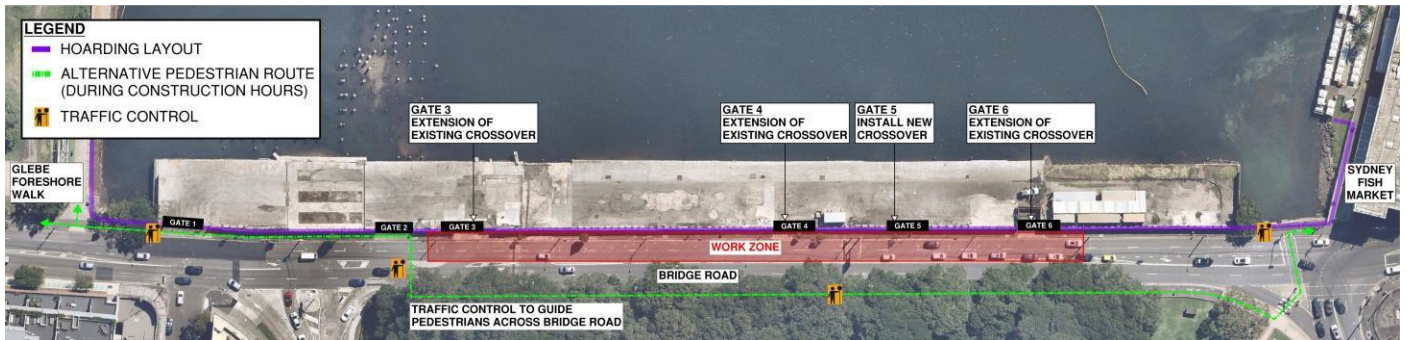

The work zone will be removed at the end of each day, and travel along Bridge Road will continue as normal outside the construction hours.
